ALUMINIUM BOATS FROM SMÅLAND

A FORM-STRETCHED HULL

Aluminium has yet another major advantage as regards, for example, designing bodywork, beams and, as here, hulls – it is exceedingly formable. Linder aluminium boats are made using so-called “form stretching”. The sheet metal for the hull is shaped (stretched) around a form. This form produces the familiar, soft and harmonic lines that constitute one of our trademarks. This forming technology saves energy because it tempers most of our aluminium alloys. Consequently, the sheets do not need to be heat hardened. Where other manufacturers use welding, or in the worst cases, riveting to join hull sections, Linder has a different approach. We join both sections using screws and a unique keel profile. The seal is so precise that, as neither light nor oxygen can get to the sealing compound, there is no ageing. Our production methods give a superior finish that has fewer joins and thus reduces the risks of leaks and wear.

LINDER ORIGINAL ACCESSORIES

Linder Original is a vast range of the highest quality functional accessories that make owning a Linder even easier. A cover, a replacement for a lost drain plug, motor mounts, oars, paddles... Or why not treat yourself to a solar cell unit for a Fishing 440? Use this range guide to select the boat or canoe of your choice. All standard equipment is included in your purchase. This is an area where we often outperform our competitors. You can, of course, also select from the accessories in this guide.

www.linder.se

Visit our website for even more information and the latest news.

DNV·GL

Our boats and canoes are approved by DNV – Det Norske Veritas (www.dnvgl.com).

Our boats are Securmark security marked. Securmark offers Scandinavia's most complete system for boat marking. Boats are marked with small microdots that contain an ID number. They are located at several places in the boat [www.securmark.se]. All costs for registering this security marking are paid by Linder. All you have to do is register your boat (over the internet or using the form that comes with the boat).
